Artsyl Technologies' advanced capture solutions will help to drive business process automation for end users of Square 9 Softworks' content management solutions

NEW HAVEN, CONN., July 26, 2011 — Square 9® Softworks, a leading developer of innovative, business-centric software solutions including the award-winning SmartSearch Content Management Suite, has formed a strategic partnership with Artsyl Technologies™, a leading provider of data capture and document processing automation technologies. Under the new partnership, Artsyl Technologies' advanced capture solutions are now available to Square 9 Softworks' customers through Square 9's expanding network of more than 250 Value Added Resellers (VARs) across North America.

docAlpha, Artsyl Technologies' most sophisticated capture solution, automatically collects, identifies and captures large volumes of structured and semi-structured documents and provides advanced classification and capture capabilities to extract and verify high-value data. This robust solution is an excellent fit for the most demanding high-volume, high-complexity applications and serves as the upgrade path for SimpleCapture, Artsyl's entry-level to mid-range solution. Artsyl's solutions are ideally suited for processing documents such as invoices, purchase orders, medical claims and sales orders; supporting the needs of a wide variety of industries including education, healthcare, medical, logistics, transportation and manufacturing.

"This exciting new partnership makes Artsyl Technologies' advanced capture solutions available immediately to Square 9 Softworks' fast-growing end-user community and expanding VAR network," said Stephen Young, President and CEO of Square 9 Softworks. "A widely recognized innovator and leader in advanced capture technologies, Artsyl Technologies' solutions are an excellent fit with Square 9 Softworks' content management solutions. Together these solutions can help Square 9's customers move beyond document imaging and content management and into the realm of business process automation where they can realize potentially enormous productivity gains and cost savings."

"Our partnership with Square 9 Softworks represents a giant step forward for the reseller community," said Jeff Moore, Vice President of Sales and Marketing of Artsyl Technologies. "The addition of advanced data capture and document processing to Square 9's cutting-edge solutions like SmartSearch gives resellers the best of all worlds. Now resellers can offer their business customers fully integrated solutions from the MFP to the Content Management repository. Using advanced capture technologies, data can drive active business processes and initiate automated workflows. With this combination of technologies, the reseller community can propose true Managed Document Services."

ABOUT SQUARE 9 SOFTWARES

Square 9 Softworks is a leading developer of innovative, business-centric software solutions including the award-winning SmartSearch Content Management Suite. Dedicated to making content management available to organizations of all sizes, Square 9 Softworks designs solutions built on open architecture and cutting-edge technologies that drive efficiency and productivity across all business applications.

Through decades of experience with content management technologies in business enterprises of all kinds, Square 9 Softworks has acquired a thorough understanding of document-driven business processes. Intensely customer-focused and highly responsive, the company delivers effective, value-driven solutions and has achieved a reputation for excellence in meeting the rapidly evolving needs of its customers.

For further information, visit www.square-9.com.

Like Square 9 Softworks' solutions, Artsyl Technologies' capture solutions are powerful and yet easy to install, configure and support. The combination of ease of use and value designed into Artsyl's solutions makes them attractive to larger organizations and more affordable to smaller ones seeking to introduce a higher level of automation into their business processes. Their architecture and scalability also make these solutions highly compatible with Square 9 Softworks' leading content management solutions such as SmartSearch.

Artsyl Technologies' docAlpha is a client-server data capture and document processing solution which offers resellers the most advanced architecture on the market as well as one of the easiest technologies to deploy and support. Entirely developed in Microsoft .NET and fully Service-Oriented Architecture (SOA)-compliant, docAlpha is highly scalable and easily integrates into most modern line-of-business applications. Artsyl's SimpleCapture is a desktop data capture solution targeted at SMB and departmental applications where little or no information technology support is required.

The SmartSearch Content Management Suite is a feature-rich solution suite that organizations of all sizes use to manage their documents electronically, driving efficiency and productivity across all business processes. Built for content management on the .NET platform using an open architecture design, SmartSearch is a scalable, value-driven solution that is easy to use, learn and support. From small businesses to the Fortune 500, organizations that rely on document-intensive processes use SmartSearch to manage documents electronically and streamline their workflow as they eliminate inefficient paper-based filing systems.
