

GlobalCapture sXP Simplifies Document Tasks By Creating Highly Efficient Workflows That Start At The Touch Panel Of Your OKI Multifunction Printer

Leverage the power of GlobalCapture directly from the touch panel of your Smart Extendable Platform (sXP) enabled OKI device. GlobalCapture sXP with QuickSearch delivers the user-friendly tools to automate image capture, enhance image quality, extract high volume data, and release documents directly to GlobalSearch - either onsite or in the cloud. GlobalCapture sXP with QuickSearch is a simple yet powerful solution for streamlining capture workflow activities and making them accessible from the touch panel of your sXP enabled OKI device.

The result is an office environment that's less complicated, more efficient, and more profitable.

All In-One

Providing multiple touch points for the capture and access of business critical information with advanced features such as image enhancement, document separation, barcode recognition, approval routing and email notifications.

QuickSearch sXP

Need a document in your GlobalSearch database? There's no need to return to your desk! Quickly search, preview and print your document right from your OKI sXP enabled device.

Easy Set-Up

Create your capture workflow through our easy drag & drop design tool; select your import method, choose your document actions, define your release point, save your workflow.

All Access

Anyone with access to the MFP can initiate a workflow that captures images, extracts high value data and notifies users of a pending workflow activity.

Differentiators

Capture

documents from your multifunctional printer, scanner, email or even a watched network directory

Optimize

batch scanning jobs with document separation through OCR, Bar Code, Page Count or Blank Page Separation

Enhance

image quality as documents are being captured including color drop out, auto cropping and noise removal

Extract

data with OCR or Bar Code Recognition for automating filing or to share with other line-of-business applications

Convert

your scanned images into text searchable PDFs as they're captured from your sXP enabled OKI MFP

Route

documents to a GlobalSearch Inbox, Archive, Network Directory or multiple locations simultaneously

Through its dynamic integration with GlobalSearch, GlobalCapture sXP provides a real-time capture solution that improves collaboration while sharing document information with other business applications.
