

## Fact Sheet

# Document Management Solutions for Education

A complete platform of products for capturing documents, extracting high value data, classifying that data into information and integrating it into existing business processes for greater efficiency.

## Market Trends

- 32.2% of institutions reported that product quality is the most important criteria when researching a vendor, while innovative technology was ranked second highest at 25.2%
- 40.2% of respondents reported the intention to purchase a new document management solution or make major modifications to their existing one in the next 18 months
- The majority of higher education institutions in the US have either deployed or are planning to use Software as a Service (SaaS) as the primary delivery model for their technology needs
- Approximately 30% stated that they are very likely to use SaaS in the next five years

*\*n=300, survey conducted by AIIIM 2017*

## Challenges

With an overwhelming amount of paperwork, the education industry faces a number of document management challenges from higher costs to compliance issues.

- Large volume of applications and associated documentation
- High paper and storage costs
- Difficulty securing information from unauthorized viewing and tampering
- Compliance requirements
- Time and resources used to locate documents
- Losing sight of applications in queue
- Tracking changes and multiple student record revisions
- Managing long document retention periods

## Solutions

Document management software provides school systems of all sizes with powerful tools to eliminate paper storage, streamline operations and increase efficiency.

- Create comprehensive student portfolios through scanned or imported projects
- Quickly access report cards and transcripts, even when out of the office
- Create IEP approval routing and conditional based notifications
- Gain FERPA compliance
- Eliminate paper-based filing and provide fast, district-wide access to student records
- Integrate with PowerSchool®, eSchoolPlus and other student information systems
- Implement eForms to standardize data collection and ensure all fields are complete

## Where It's Used

- Admissions Applications
- Student/Staff Records
- PPT/IEP/504 Plan Records
- Student Portfolios
- Financial Aid
- Payroll Records
- CEU Tracking
- Residency Documents

## Award Winning Products For Education Automation

**Q Document Capture Automation**  
Transform captured business content into high value information that can be shared across your entire organization.

**🔒 Enterprise Content Management**  
Secure and compliant storage of business content allows users to classify information for improved access and collaboration.

**⚙️ Business Process Management**  
Redefine organizational efficiency with processes that enforce business rules while allowing for global participation.

**📄 Web Forms Management**  
Extend document automation effortlessly with dynamic web forms that eliminate paper-based processes.

## Why Choose Square 9 As Your Solutions Provider?

**🎯 Focused**  
Focused on solving business problems, delivering new and innovative products for improving efficiency and productivity.

**📈 Sustainable**  
Committed to a progressive development strategy, as an investment made today, can be counted on to deliver for years.

**✅ Reliable**  
While software companies can take a day or more to respond to support issues, our response time is measured in minutes.

**🛠️ Versatile**  
Offering a complete platform of solutions specializing in the most common business applications, servicing any industry.

“ We've eliminated **10 hours per week**, meaning we are saving approximately **\$10,000 per year** in labor costs alone. GlobalSearch quickly paid for itself, streamlining our operations considerably, helping us to do our jobs much better and faster—for less money. I estimate that our overall efficiency gains with GlobalSearch is in the neighborhood of **25 to 30%**. GlobalSearch has given us greater control over our records and is helping us comply with FERPA. And, for the first time, we have a reliable disaster recovery system. ”

- Michael Murray, Assistant Director of Academic Affairs  
The Ohio State University
