For Immediate Release

Square 9 Disrupts Solutions Industry with GlobalSearch C2 Business Essentials

*New Cloud-Based Solution Delivery Model Revolutionizes ECM Software Sales with
Introduction of the Square 9 Solutions Delivery Network*

NEW HAVEN, CONN., March 20, 2019 – New Haven based Square 9® Softworks, Inc. announced today a bold new strategy for solutions delivery with the release of GlobalSearch C2 for Business Essentials. Built on the GlobalSearch cloud platform, Business Essentials is a powerful and highly secure enterprise content management solution that features tools for optimizing any digital transformation strategy. Designed to deliver immediate results, GlobalSearch C2 for Business Essentials provides pre-designed vertically driven solutions that includes all the tools to successfully manage business content.

With its many years of experience working with the Office Equipment channel, Square 9 designed Business Essentials to compliment the way modern solution providers operate. Business Essentials enables dealers to drive solution sales with ease by eliminating long sales cycles and simplifying the delivery process without sacrificing functionality or flexibility. The new methodology behind Business Essentials results in faster deployments and immediate benefits to the customer, while greatly reducing funding times to the dealer.

The goal of GlobalSearch C2 for Business Essentials is to drive broader ECM adoption by providing a solution that addresses the shared needs of most businesses in an easy to use, highly efficient manner and with minimum cost. The standout features of Business Essentials include predesigned solutions that allow users to immediately get the most from their investment in a digital transformation strategy. These solutions cover common business areas including Accounts Payable, Accounts Receivable, Human Resources and Contracts Management.

Through the introduction of Square 9's new Solutions Delivery Network (SDN), users have instant access to a library of applications designed by Square 9. Additional vertically designed solutions are made available upon release allowing the on-demand library to expand in real time. Additional plug in modules include DirectConnect for integrated MFP Capture and GlobalSearch Extensions, Square 9's online collection of apps designed to optimize the browser experience.

While GlobalSearch C2 for Business Essentials is based on pre-designed solutions, it is also highly customizable for users with unique business needs. As part of the Square 9 family of Enterprise Content Management solutions, Business Essentials can be complemented with optional add-ons including workflow automation or web forms management.
