Square 9 Softworks Releases Guide to Master OCR to Strengthen Document Capture Investment

Guide Breaks Down OCR Strategies and Implementation Methods

New Haven, CT. June 7, 2023 – Square 9 Softworks, an award-winning platform that simplifies document-related processes, has recently released a guide for those considering OCR and Document Capture solutions for their organization.

This expert guide, “Your Guide to Mastering OCR” aims to provide insightful strategies for capturing documents based on an organization’s needs. It also gives a detailed but easily digestible glimpse into common methods for implementing capture solutions.

OCR, an acronym for optical character recognition, is a method used for transcribing images and other file types into computer-legible text. By combining OCR with tools like artificial intelligence and machine learning, organizations can quickly convert content like images, emails and electronic files into high value data.

“We want people to be informed when investing in their digital transformation,” says Stephen Young, Square 9’s President and CEO. “By providing helpful content that resonates with those in our space and ensuring buyers are aware of their options.”

In addition to guiding those researching OCR and Document Capture, Square 9 has also created expert guides for educational institutions and human resources departments looking to digitally transform the way they handle documents.

Thoughtful and informative pieces like this showcase Square 9’s dedication to customer service along the customer journey. You can view Square 9’s OCR Guide for yourself here: <https://info.square-9.com/ocr-guide>

About Square 9 Softworks®

At Square 9, we simplify common business tasks with enterprise content management, document capture, web forms, and business process automation tools that can be easily adapted to automate any paper-intensive process. That means you can spend less time on monotonous tasks and more time on growth and innovation. For more information, please visit www.square-9.com.
