Square 9 and PDI Technologies Announce Strategic Alliance for Intelligent Information Management

New Relationship Brings Enhanced AI Offerng for AP Automation and More

New Haven, CT. January 10, 2024 – Square 9 Softworks, a leading provider of AI-powered Intelligent Information Management solutions, and PDI Technologies have announced a new agreement designed to benefit their new and existing base of shared customers. This agreement will introduce enhanced AI-driven data extraction solutions for automating the flow of information into PDI Technologies ERP and Back Office solutions.

With this technology relationship, PDI customers will be able to eliminate the manual data entry associated with entering payables information to improve staff productivity. In addition, Square 9's intelligent information management platform will expedite the flow of information throughout the organization to further increase process efficiency

"We are excited to formalize our relationship with PDI Technologies after working together now for several years," said Stephen Young, President and CEO of Square 9 Softworks. "Our latest guide aims to provide them with the knowledge and tools they need to fully understand document management and its options for streamlining their workplace."

In addition to guiding those researching document management, Square 9 has also created expert guides for enterprise content management, accounts payable automation, optical character recognition, and educational institutions and human resources departments that are looking to transform how they manage their information.
