

Simplify Data Collection and Streamline Processes with **Web Forms Management**

Transform manual paper-based processes into digital workflows, empowering your team to work the way you want to work. Seamlessly capture, organize data to boost efficiency, accuracy, and productivity with a web forms management solution.

Web Forms Management That **Works The Way You Do**

Increased Efficiency

Say goodbye to time-consuming manual data entry. Automating web form processes enables your team to focus on higher-value tasks.

Enhanced Accuracy

Digital forms with automated validation ensure consistent and error-free data collection.

Real-Time Processing

Access and act on form data in real time, accelerating decision-making and improving customer satisfaction.

Cost Savings

Reduce paper, printing, and storage costs by digitizing forms and automating document handling.

Compliance & Security

Ensure all form data is securely stored and compliant with industry regulations such as SOC and HIPAA.

Maximize Your Investment With A Web Forms Management Solution That:

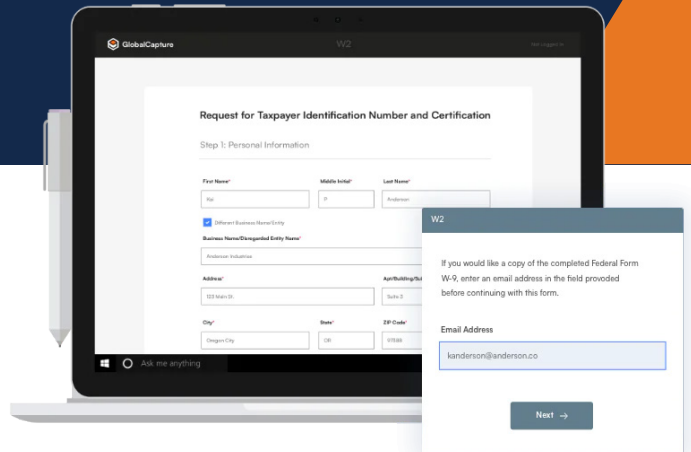

Customizes your data collection to your processes and easily captures the exact information you need with no coding expertise required.

Routes submissions automatically through predefined approval workflows, eliminating bottlenecks and speeding up your processes.

Seamlessly integrates with your existing business systems, including ECM and CRM platforms, and other back-end systems to streamline your entire document lifecycle.

Enables access from any device, ensuring your team and clients can submit forms on the go, improving convenience and response times.

Automates data capture to extract and classify data automatically as soon as it's submitted, reducing human error and ensuring accuracy across all your workflows.

“

The best part about this solution is the consistent flow of information going to the right place, at the right time properly. I was also happy to see that 50% of our sales staff do not use paper at all anymore by keeping their sales notes on the digital lead form and then making additional notes after the form is stored in the archive

Julie Ackerman, Commers Water
